

LAMINEX® Melamine Edging

Laminex® Continuous Melamine Edging is designed to achieve exceptional performance. The combination of modified melamine thermosetting resins, paper and continuous hot pressing, ensures high resistance to wear and stains. It is recommended for all types of edge treatment for particleboard, medium density fibreboard and plywood. It is supplied pre-glued with a hot melt, or unglued for bonding with hot melts. All Laminex Melamine Edgings have been independently certified as environmentally preferable by Good Environmental Choice Australia. Colour options are available to coordinate perfectly with the entire Laminex range of panels and laminates.

| PRODUCT | COLOUR RANGE | PRODUCT OPTIONS | | ROLL SIZES (NOMINAL) |
|-----------|------------------------|-----------------|--------|----------------------|
| | | THICKNESS | WIDTHS | |
| Pre-glued | Laminex Colour Palette | 0.4mm | 21mm | 100m / 25m |
| Unglued | Laminex Colour Palette | 0.4mm | 21mm | 100m |

Laminex Melamine Edging comes with a flint (textured) finish to match Laminex decorated panels. Some Natural finish (smooth) Melamine Edging is also available to match a select range of Laminex colours. Special widths can be manufactured as required, depending on minimum order quantities.

LAMINEX MELAMINE EDGING (Typical physical properties when tested to AS/NZS 2924.1-1998)

| PROPERTY | REQUIREMENT |
|------------------|--|
| Wear Value | Average wear not less than 50 cycles |
| Stain Resistance | Pass AS/NZS 2924.1-1998 Type VLS |

Paper Source for Laminex Melamine Edging

Decorative paper used to make Melamine Edging is sourced from suppliers in Europe, Asia, Scandinavia and the USA. Our suppliers use wood pulp from managed timber plantations. Heavy metals are not present in the colouration pigments used for paper supplied to The Laminex Group. We specify use of Elemental Chlorine Free (ECF) bleached pulp for decorative paper.

PVC Minimisation

Melamine Edging is an effective alternative to PVC as a panel edge treatment.

Laminex Melamine Edgings have been certified as environmentally preferable products by Good Environmental Choice Australia.
