

Laminex® CrystalGloss® Surfaces: High Gloss, High End Vertical Solutions

Scaling the heights of global-leading design trends, The Laminex Group is dedicated to enhancing the domestic and commercial doors and panels market with innovative surfaces that deliver both inspired decors and practical design solutions.

New Laminex® CrystalGloss® Surfaces raise the bar for vertical interior surfaces and panels with innovative design and exceptional high gloss.

A superior alternative to existing gloss finish options, Laminex CrystalGloss Surfaces present the perfect form and durability for a

variety of premium vertical applications from cabinet doors, drawers and panels in the kitchen, to decorative wall feature panels.

With a choice of Clear High Gloss and Metallic High Gloss finishes, Laminex CrystalGloss Surfaces are available in 40 contemporary decors, including 28 colours hand-picked from the extensive Laminex Colour Palette to deliver a brilliant high gloss finish that complements Laminex surfaces throughout the home.

Additionally, the range introduces 12 new metallic finishes revealing a highly desirable metallic lustre. Expertly crafted using the latest technology inspired by the automotive coatings industry, Laminex CrystalGloss Metallic Surfaces feature a rich high-gloss clear coating over a metallic base layer, creating a lustre not previously witnessed in interior panels and cabinet doors.

Laminex CrystalGloss Surfaces are crafted using innovative surfaces technology. They are available in single and double sided sheet options suitable for fabrication with

edging alternatives, or can be supplied made to order as doors and panels to suit individual design needs.

A range of matching or complementary edge finishes are available for the CrystalGloss Clear range to ensure a streamlined look in any application, with the CrystalGloss Metallic range featuring ready-coated edges.

Ready to fabricate or install, Laminex CrystalGloss Surfaces come complete with a seven year limited warranty.
