Laminex® Silk Finish™ crafts the perfect design package

Laminex® is dedicated to inspiring interior projects where colours and finishes skillfully work together to create a visual statement which flows seamlessly across every element of the design.

The newest addition to the Laminex portfolio, **Laminex® Silk Finish™**, makes it easier than ever to craft integrated surface design solutions and fulfill the growing demand for a gloss look.

Laminex Silk Finish is an innovative range of decorated laminate board that offers a contemporary gloss melamine finish with high definition colour clarity. Combining a refreshing use of colour with the functional aspects of decorated board, the range is ideal for use in both domestic and commercial interiors on drawers, doors, vertical panels, breakfast bars and shop fittings.

There are six decors available, hand-picked to reflect contemporary colour trends and to coordinate seamlessly with other products from the Laminex Colour Palette.

They include four solid colours in neutral tonings: *Polar White*, *Parchment*, *New Antique White*, and *Pumice*. Two patterns, *Mushroom Linea* and *Licorice Linea*, are also available to inspire designs with surface depth and texture.

Laminex Silk Finish is custom-designed to complement the popular decors of Laminex Vinyl doors, meaning doors and panels can be effortlessly packaged to provide matching gloss vertical surfaces.

Smooth, easy to clean and supported by an exceptional seven year limited warranty, Laminex Silk Finish surfaces are guaranteed to create a lustrous look that lasts.

Laminex Silk Finish is available in a 2400mm x 1200mm x 16mm/18mm MR MDF and is complemented by colour coordinated gloss ABS edging.
